What is CNIC?

Commander, Navy Installations Command (CNIC) supports the Navy mission by enabling Fleet, Fighter and Family readiness through reliable shore support.

Many different aspects of installation management come under CNIC's responsibility. Just a few are: port operations, weapons storage, real estate & housing, and emergency management.

CNIC manages all IT assets and supporting infrastructure providing critical systems support for the numerous Commands comprising Navy installations worldwide.

To enhance CNIC IT management, CNIC has established IT Hosting Centers in Norfolk, San Diego, and Guam. VITAL opportunities are in these IT Hosting Centers.

Visit www.cnic.navy.mil for more information about CNIC.
